SAFETY DATA SHEET

Eastman(TM) Cellulose Acetate Butyrate
(CAB-553-0.4)

SECTION 1. IDENTIFICATION

Product name : Eastman(TM) Cellulose Acetate Butyrate (CAB-553-0.4)
Product code : 01857-00, P0185753, P0185750, P0185752, P0185751, P0185701, P01857AB, P0185700, P0185732, E0185701, P0185734, P0185708, P01857FC, P0185720, P0185779

Manufacturer or supplier's details
Company name of supplier : Eastman Chemical Company
Address : 200 South Wilcox Drive
          Kingsport TN 37660-5280
Telephone : (423) 229-2000
Emergency telephone : CHEMTREC: +1-800-424-9300, +1-703-527-3887 CCN7321

Recommended use of the chemical and restrictions on use
Recommended use : Polymer
Restrictions on use : None known.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with 29 CFR 1910.1200
Combustible dust

GHS label elements
Signal Word : Warning
Hazard Statements : May form combustible dust concentrations in air.
Precautionary Statements :
  Prevention: P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.
              P243 Take action to prevent static discharges.
  Disposal:  P501 Dispose of contents/container to an approved facility in accordance with local, regional, national and international regulations.

Other hazards
None known.
SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Pure substance
CAS-No. : Not Assigned

Ingredients

SECTION 4. FIRST AID MEASURES

If inhaled : Move to fresh air.
            Treat symptomatically.
            If symptoms persist, call a physician.

In case of skin contact : Wash off with soap and water.
                         If symptoms persist, call a physician.
                         Cool skin rapidly with cold water after contact with molten material.
                         Do not peel solidified product off the skin.
                         Burns must be treated by a physician.

In case of eye contact : In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
                       Remove contact lenses, if present and easy to do. Continue rinsing.

If swallowed : Seek medical advice.

Most important symptoms and effects, both acute and delayed : The molten product can cause serious burns.

Notes to physician : Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media : Water spray
                                 Dry chemical
                                 Carbon dioxide (CO2)

Unsuitable extinguishing media : Do not use a solid water stream as it may scatter and spread fire.

Specific hazards during fire fighting : Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Hazardous combustion prod- : No hazardous combustion products are known
SAFETY DATA SHEET

Eastman(TM) Cellulose Acetate Butyrate
(CAB-553-0.4)

Version 2.1  
PRD  
Revision Date: 10/24/2017  
SDS Number: 150000001222  
Date of last issue:  
SDSUS / Z8 / 0001  
Date of first issue: 09/06/2016

Further information  
Minimize dust generation and accumulation.

Special protective equipment for fire-fighters  
Wear an approved positive pressure self-contained breathing apparatus in addition to standard fire fighting gear.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures  
Wear appropriate personal protective equipment.  
Local authorities should be advised if significant spillages cannot be contained.

Environmental precautions  
Avoid release to the environment.

Methods and materials for containment and cleaning up  
Sweep up and shovel into suitable containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion  
Minimize dust generation and accumulation.

Advice on safe handling  
Mixing cellulose esters in a nonpolar hydrocarbon, such as toluene or xylene, may result in the buildup of static electricity, which can cause a flash fire or an explosion. When adding cellulose ester to any flammable liquid, an inert gas atmosphere should be maintained within the vessel.

Conditions for safe storage  
Keep container tightly closed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters  
Contains no substances with occupational exposure limit values.

Engineering measures  
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment  
Respiratory protection  
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved
respirator must be worn.

Hand protection

Remarks : Wear suitable gloves. When handling hot material, use heat resistant gloves.

Eye protection : Safety glasses

Skin and body protection : Wear suitable protective clothing.

Protective measures : Ensure that eye flushing systems and safety showers are located close to the working place.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : powder

Color : white

Odor : slight, characteristic

Odor Threshold : not determined

pH : Not applicable

Melting point/range : 127 - 240 °C

Flash point : not applicable, combustible solid

Evaporation rate : not determined

Flammability (solid, gas) : May form combustible dust concentrations in air.

Upper explosion limit : not determined

Lower explosion limit : not determined

Vapor pressure : not determined

Relative vapor density : not determined

Relative density : > 1

Solubility(ies) :
Water solubility : negligible
Partition coefficient: n-octanol/water : No data available
Autoignition temperature : not determined
 Decomposition temperature : 303.5 °C
 Method: DSC
Viscosity
Viscosity, dynamic : not determined
Viscosity, kinematic : not determined
Explosive properties : No data available
Oxidizing properties : No data available
Dust explosion class : St 2 - strong explosion

SECTION 10. STABILITY AND REACTIVITY
Reactivity : None reasonably foreseeable.
Chemical stability : Stable under normal conditions.
Conditions to avoid : Minimize dust generation and accumulation.
Incompatible materials : Strong oxidizing agents
Hazardous decomposition products : Carbon monoxide
 Carbon dioxide (CO2)

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity
Not classified based on available information.

Product:
Acute oral toxicity : Remarks: No data available
Acute inhalation toxicity : Remarks: No data available
Acute dermal toxicity : Remarks: No data available

Skin corrosion/irritation
Not classified based on available information.
SAFETY DATA SHEET

Eastman(TM) Cellulose Acetate Butyrate
(CAB-553-0.4)

Version 2.1  Revision Date: 10/24/2017  SDS Number: 150000001222  Date of last issue: -
PRD  SDSUS / 28 / 0001  Date of first issue: 09/06/2016

Product:
Remarks: No data available

Serious eye damage/eye irritation
Not classified based on available information.

Product:
Remarks: No data available

Respiratory or skin sensitization

Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Product:
Remarks: No data available

Germ cell mutagenicity
Not classified based on available information.

Carcinogenicity
Not classified based on available information.

Product:
Remarks: This information is not available.

IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No component of this product present at levels greater than or equal to 0.1% is on OSHA’s list of regulated carcinogens.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity
Not classified based on available information.

Product:
Effects on fertility  Remarks: No data available

STOT—single exposure
Not classified based on available information.

Product:
Remarks: No data available

**STOT-repeated exposure**
Not classified based on available information.

**Product:**
Remarks: No data available

**Aspiration toxicity**
Not classified based on available information.

**Product:**
No data available

**Information on likely routes of exposure**

**Product:**
Inhalation : Remarks: None known.

Skin contact : Remarks: Molten material will produce thermal burns.

Eye contact : Remarks: Molten material will produce thermal burns.

Ingestion : Remarks: None known.

---

**SECTION 12. ECOLOGICAL INFORMATION**

**Ecotoxicity**
No data available

**Persistence and degradability**
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available

**Other adverse effects**
No data available

---

**SECTION 13. DISPOSAL CONSIDERATIONS**

**Disposal methods**
Waste from residues : Dispose of in accordance with local regulations.
SECTION 14. TRANSPORT INFORMATION

International Regulations

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

Domestic regulation

49 CFR
Not regulated as a dangerous good

SECTION 15. REGULATORY INFORMATION
