SECTION 4. FIRST AID MEASURES

If inhaled:
- Move to fresh air.
- Treat symptomatically.
- If symptoms persist, call a physician.

In case of skin contact:
- Wash off with soap and water.
- If symptoms persist, call a physician.
- Cool skin rapidly with cold water after contact with molten material.
- Do not peel solidified product off the skin.
- Burns must be treated by a physician.

In case of eye contact:
- In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

If swallowed:
- Seek medical advice.

Most important symptoms and effects, both acute and delayed:
- The molten product can cause serious burns.

Notes to physician:
- Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:
- Water spray
- Dry chemical
- Carbon dioxide (CO2)

Unsuitable extinguishing media:
- Do not use a solid water stream as it may scatter and spread fire.

Specific hazards during firefighting:
- Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Hazardous combustion products:
- No hazardous combustion products are known

Further information:
- Minimize dust generation and accumulation.

Special protective equipment for fire-fighters:
- Wear an approved positive pressure self-contained breathing apparatus in addition to standard fire fighting gear.
SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
- Wear appropriate personal protective equipment.
- Local authorities should be advised if significant spillages cannot be contained.

Environmental precautions:
- Avoid release to the environment.

Methods and materials for containment and cleaning up:
- Sweep up and shovel into suitable containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion:
- Minimize dust generation and accumulation.

Advice on safe handling:
- Wash thoroughly after handling.
- Use only in area provided with appropriate exhaust ventilation.
- Minimize dust generation and accumulation.

Conditions for safe storage:
- Keep tightly closed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters:
Contains no substances with occupational exposure limit values.

Engineering measures:
- Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment:

Respiratory protection:
- Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Wear respiratory protection when its use is identified for certain contributing scenario.

Hand protection:

Remarks:
- Wear suitable gloves. When handling hot material, use heat resistant gloves.
Eye protection : Safety glasses
Wear a face shield when working with molten material.

Skin and body protection : Wear suitable protective clothing.

Protective measures : Ensure that eye flushing systems and safety showers are located close to the working place.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice.
