SECTION 4. FIRST AID MEASURES

General advice:
Get medical attention if symptoms occur.
Show this safety data sheet to the doctor in attendance.
If breathing is difficult, give oxygen.
If not breathing, give artificial respiration.
Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

If inhaled:
Move to fresh air.
Call a physician or poison control center immediately.

In case of skin contact:
Wash off immediately with plenty of water for at least 15 minutes.
Take off all contaminated clothing immediately.
Call a physician or poison control center immediately.

In case of eye contact:
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed:
If accidentally swallowed obtain immediate medical attention.

Most important symptoms and effects, both acute and delayed:
Persons who have inhaled vapours or smoke fumes have to be put under medical observation for at least 48 hours, due to the delayed appearance of poisoning.
