Special protective equipment for fire-fighters:
Wear an approved positive pressure self-contained breathing apparatus in addition to standard fire fighting gear.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
Use personal protective equipment. Local authorities should be advised if significant spillages cannot be contained.

Environmental precautions:
Avoid release to the environment.

Methods and materials for containment and cleaning up:
Eliminate all ignition sources if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Prevent further leakage or spillage if safe to do so.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion:
Keep product and empty container away from heat and sources of ignition.

Advice on safe handling:
Avoid contact with skin, eyes and clothing. Do not taste or swallow. Ensure adequate ventilation, especially in confined areas. Do not breathe vapors or spray mist. Wash thoroughly after handling.

Conditions for safe storage:
Keep containers tightly closed in a dry, cool and well-ventilated place.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Engineering measures:
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment

Respiratory protection:
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where...
exposure limits have not been established), an approved respirator must be worn.

Hand protection
